Naung Naung

Full-Stack Developer

Bangkok, Thailand | Myanmar | naungnaung.code@gmail.com
github.com/naungnaung-dev | linkedin.com/in/naung-naung

PROFESSIONAL SUMMARY

Full-Stack Developer with 5+ years of experience building and maintaining web applications across frontend and backend systems. Experienced with React, Next.js, Vue.js, Node.js, and Laravel, including RESTful APIs and relational and NoSQL databases. Professional background spans software engineering teams and the independent development of a full-stack software product.

TECHNICAL SKILLS

Frontend: React, Next.js, Vue.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, PHP, Laravel, RESTful APIs

Databases: MySQL, MongoDB, Mongoose

Tools: Git, GitHub, Swagger, Docker, Vercel, Figma

PROFESSIONAL EXPERIENCE

Founder & Full-Stack Developer | AskOnce

April 2026 - Present

- Lead product planning and full-stack development for an independent web product serving social media sellers.
- Manage testing, debugging, deployment, maintenance, and continued product development.

Full-Stack Developer | Viatick

August 2025 - December 2025 | Bangkok, Thailand | Remote

- Developed frontend application functionality using React and Next.js in collaboration with product managers and development teams.
- Contributed to backend services, database-driven features, and RESTful APIs.
- Documented APIs with Swagger and tested, debugged, and optimized application functionality.

Independent Web Developer

September 2024 - July 2025 | Bangkok, Thailand | Remote

- Focused on independent web development projects and technical upskilling with React, Tailwind CSS, Node.js, and MongoDB.
- Used Git and GitHub for version control and practiced UI/UX design and prototyping with Figma.

Software Engineer | Uplyrn

March 2022 - June 2024 | Yangon, Myanmar | Remote

- Developed and maintained full-stack web application functionality using Vue.js, Laravel, and MySQL.
- Worked with relational data, troubleshot application issues, and tested software functionality.

Software Development Engineer | Pinnacle Venture Myanmar

October 2020 - February 2022 | Yangon, Myanmar | On-site

- Developed dynamic web applications using Laravel, PHP, Vue.js, JavaScript, and MySQL.
- Built and maintained RESTful APIs supporting frontend application functionality.

ADDITIONAL EXPERIENCE

Freelance UI/UX Designer | Top Range GPS Co., Ltd. | July - August 2024

Freelance Web Developer | LM learnMyanmar | January - March 2023

Software Development Intern | Oway.com.mm | July - September 2020

Junior Web Developer | Marter Solutions | October - November 2018

FEATURED PROJECT

AskOnce | Founder & Full-Stack Developer

April 2026 - Present

Independent full-stack product for social media sellers to organize product information and support customer browsing and ordering.

- Developed product and category management, product variants, and stock-information functionality.
- Built server-side APIs and MongoDB data models with Mongoose for product and ordering workflows.
- Implemented authentication, role-based access control, a responsive public storefront, cart functionality, and customer ordering.

Technologies: Next.js, React, TypeScript, Tailwind CSS, MongoDB, Mongoose, AWS S3, Vercel
